TOP SOIL and SEER ROCKDUST SUCCESS

I decided to get my garden re-done this year and so I took on the services of Jean Lackie who runs Southview Nursery and whom I believe is a SEER Rockdust distributor.

Jean's first step was to bring in new top soil that she sourced from Dundee. She then insisted in adding a surface dressing of the SEER Rockdust.

It is now a delight to report that I have a superb new garden in place that quite outstrips any expectations my wife and I may have had for it. Each of the flowers is an absolute delight with vibrant colours and they seem to have thrived exceptionally well despite this summer's heavy rains.

Jean herself says she has never seen a garden establish so well in such a short space of time.

She also used a top dressing of SEER Rockdust on the lawn and even it is better than I expected.

Yes, I have no doubt you have something very special with SEER Rockdust. But be warned – you cannot help but become interested in gardening when you see the

results SEER Rockdust produces!
