

As featured on BBC Beechgrove Gardens, LANDWARD, Radio Scotland, Radio 4.

LECTURES 2007

WHAT IS SEER® Rockdust®? HOW DOES IT WORK?

**LOCAL COUNCILS, FARMERS, GARDENERS and
ALLOTMENT GROUPS CAN HEAR THE ANSWERS
FROM THE CO-FOUNDERS OF THE SEER CENTRE.....**

CAMERON THOMSON: Soil fertility history since the last ice age and the role of remineralised soil in achieving sustainable organic husbandry, absorbing CO² and stabilising climate change.

MOIRA THOMSON: Developing the SEER Centre Gardens - visual proof that large, tasty mineralised crops can be grown - even on poor soils - with benefits to our environment, food chain, health, nutrition and fertility.

**TWO 30 MINUTE LECTURES WITH SLIDE SHOW AND REMINERALISED VEGETABLE
DISPLAY FOLLOWED BY 1 HOUR DISCUSSION WITH THE AUDIENCE.**

Book Cameron and Moira Thomson at your local venue
